

Joseph Emery is excited for the opportunity to run for Councilman in Ward 3. Joseph has been a Conneaut resident for 28 years and residing on Detroit street for 22 of those years. Joseph graduated from Conneaut High School in 2008, where he was a member of National Honor Society and attended Buckeye Boys State. That's when he gained an affection for local public office. From there Joseph went on to receive his Bachelors in Science from Walsh University in North Canton, OH. Graduating in 2012, he majored in Biology with a minor in Chemistry. Joseph returned to Conneaut shortly their after working as an Associate Scientist at Ricerca Biosciences in Concord Ohio. Once specializing in agrochemistry Joseph turned his attention elsewhere when he accepted a position at BASF in Beachwood, OH as a Senior Research and Development Technician focusing on electrochemistry. Joseph views this opportunity to give back to the city and community by aiding in the function and effectiveness of its local government.

*"Conneaut is a great city and community. I am truly looking forward to, if elected, being involved with our residents and working collaboratively with my fellow Councilmen to develop solutions that will have a positive impact on our city and have the greatest benefit to the residents of Conneaut."*

- Joseph Emery
